WHO ARE WE

○

African Top Level Domains Organization (AFTLD) is a membership based not-for-profit organization that acts as a focal point for all the African TLDs Managers, to discuss matters of policy that affect ccTLDs globally and then, where possible, to present the group's position as one voice.

OBJECTIVES

- Represent the interests of the African ccTLDs, including the neighboring islands around the African continent .

- Promote communication and cooperation between ccTLDs' managers .

- Inform the African Internet community about the ICANN process, IANA and World ccTLD Community through an awareness and outreach program .

- Provide a common address where information about African ccTLD's can be obtained .

- Assist in Africa Internet & DNS Related Technologies Capacity Building .

- Development of Africa ccTLDs Policies, Administration and Technical Infrastructure
