TO WHOM IT MAY CONCERN

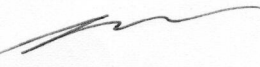

In the light of the recent email on the NAPAfrica mailing list, I would just like to clear the air. The IP route objects were created by myself for Cloud Innovation when they signed up as a client of Macrolan (now SEACOM) as they didn't have their own AS.

At the time I was working for Macrolan (now SEACOM). I left the employment of SEACOM in October 2019.

It appears that when Cloud Innovation's contract with SEACOM came to an end, the route objects were never cleaned up.

This occurred after I left SEACOM's employment. Since leaving, I have no access to the route objects.

Regards
